L O T U S

AI Recovery Companion & Outcomes Analytics Platform

Investor Presentation | 2026

CONFIDENTIAL

THE OPPORTUNITY

Addiction treatment is a $42B market with a massive outcomes gap.

Treatment providers have no way to measure what happens between sessions. Payers are demanding outcomes data. Patients are disengaging. The industry needs a technology layer.

48M

Americans with substance use disorders

40-60%

relapse within 30 days of discharge

$42B

annual cost of untreated SUDs

52%

national treatment completion rate

THE PRODUCT

Two products. One connected platform.

HIPAA-compliant platform giving patients daily AI-powered recovery tools and providers a real-time outcomes engine — purpose-built for substance abuse treatment.

Patient App — $25/mo

- ✓ Sobriety tracker, mood & craving check-ins
- ✓ Sage AI companion (24/7, 10+ languages)
- ✓ 50-lesson bite-sized recovery workbook (~3 min each)
- ✓ Support Network Rewards Center (family/sponsor incentives)
- ✓ Urge mode, crisis tools, voice journaling
- ✓ Gamification, streaks, XP, social milestones
- ✓ Smart notifications & re-engagement nudges

Provider Dashboard — $1K/mo + $25/pt

- ✓ Real-time patient engagement analytics
- ✓ AI predictive risk alerts & code qualification
- ✓ Revenue Intelligence & billing code optimization
- ✓ Predictive analytics engine (30-day forecasts)
- ✓ EHR integration (Kipu Health + others)
- ✓ Payer-ready outcome reports & cohort tracking
- ✓ AI clinical summaries & documentation support

ENGAGEMENT ENGINE

The Support Network Rewards System that keeps patients engaged.

Family, friends, and sponsors pledge real-world rewards (gift cards, dinners, trips). Patients earn XP through daily engagement and unlock rewards — creating a powerful external motivation loop.

1

Support Team Invited

Patient invites family, friends, sponsor via simple link

2

Rewards Pledged

Supporters pledge gift cards, dinners, trips, experiences

3

Patient Earns XP

Check-ins, workbook, journaling, meditation all earn points

4

Rewards Unlocked

When XP threshold is met, patient redeems from the app

5

Everyone Notified

Both patient and supporter get celebration notifications

3.2x	67%	41%	89%
higher retention with external reward systems	of patients engage daily when rewards are visible	lower relapse rate with family-supported programs	of supporters stay active when they see progress

REVENUE INTELLIGENCE

Maximize provider revenue through billing code optimization — not billing.

Lotus tracks patient engagement and maps it to billable code eligibility (CPT, HCPCS, RTM, DMC-ODS). All actual billing is handled by the provider's EHR (Kipu, etc.). We optimize — they bill.

What Lotus Tracks & Measures

- RTM code eligibility (98975–98981) via daily check-ins
- DTx code qualification (G0553/G0554) via workbook
- BHI code tracking (99484) via medication adherence
- Missed code opportunities flagged by AI
- Documentation gap detection before EHR submission
- Predictive 30-day revenue forecasting

EHR Integration & Data Flow

- Real-time sync to Kipu Health every 15 minutes
- Code-eligible data sent to EHR for claims submission
- Provider billing team handles all actual claims
- Estimated billable value dashboard for CFOs/CEOs
- Scaling projections for revenue at patient volume
- 8.8x ROI demonstrated at current pilot census

BUSINESS MODEL

Two revenue streams.
Multiple expansion paths.

B2C — Patient App

$25 /month

- ✓ Freemium model drives organic acquisition
- ✓ Premium unlocks workbook, analytics, rewards
- ✓ Support network rewards drive viral growth
- ✓ App Store distribution (iOS + Android)
- ✓ 14-day free trial, no credit card required

B2B — Enterprise

$1K + $25/pt/mo

- ✓ Direct sales to treatment centers
- ✓ Revenue Intelligence drives immediate ROI
- ✓ Average contract: 50-200 patients
- ✓ EHR integration (Kipu) reduces friction
- ✓ Pilot-to-paid conversion funnel

UNIT ECONOMICS

Strong margins at scale.
SaaS economics with clinical impact.

B2C PATIENT APP	
Monthly Revenue / User	**$25**
Annual Revenue / User	**$300**
Est. COGS (AI, hosting)	**~$4/mo**
Gross Margin	**~84%**
Free-to-Paid Conversion	**5-8%**
LTV (12-mo avg retention)	**$270**
Target CAC	**$30-50**
LTV:CAC Ratio	**5.4-9.0x**

B2B ENTERPRISE	
Platform Fee	**$1,000/mo**
Per-Patient Fee	**$25/mo**
Avg Facility (100 pts)	**$3,500/mo**
Annual Contract Value	**$42,000**
Est. COGS per facility	**~$600/mo**
Gross Margin	**~83%**
Target Sales Cycle	**60-90 days**
Net Revenue Retention	**120%+**

FINANCIAL PROJECTIONS

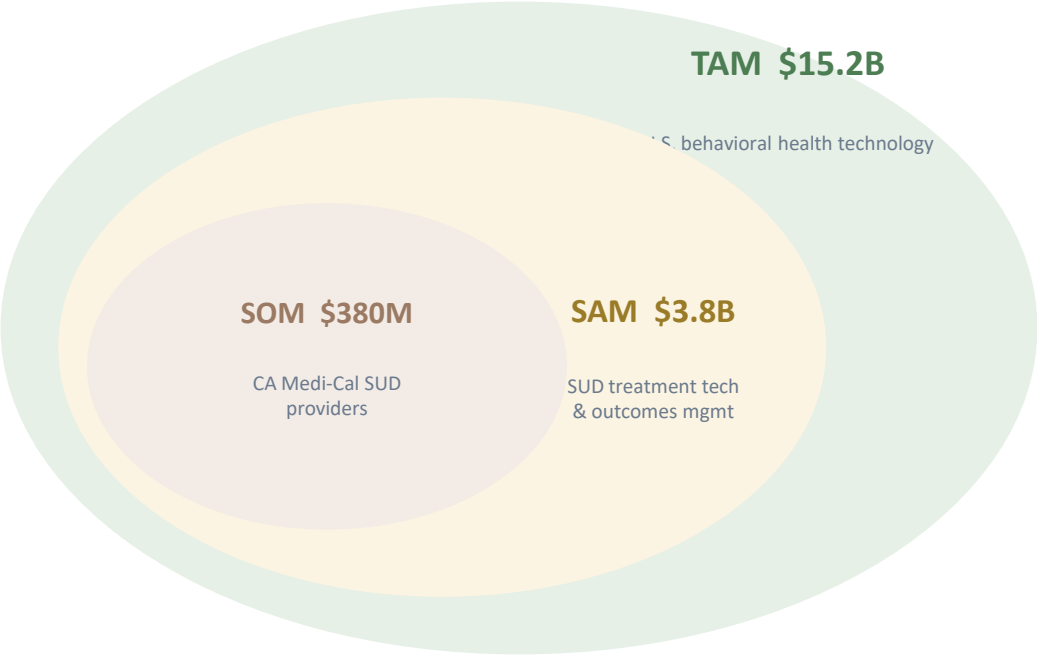
Path to $40M ARR in 5 years

Dual-revenue model: B2B enterprise platform ($1K/mo + $25 PMPM) and B2C freemium app ($25/mo). EBITDA positive by Year 3.

	Year 1	Year 2	Year 3	Year 4	Year 5
Enterprise Clients	3	5	10	12	15
Enterprise Patients	10,000	25,000	50,000	62,500	75,000
B2B Revenue	$3.0M	$7.9M	$17.6M	$24.3M	$31.8M
B2C Subscribers	200	1,320	5,400	14,400	33,000
B2C Revenue	$33K	$257K	$1.2M	$3.4M	$8.1M
Gross Margin	65%	70%	74%	77%	80%
EBITDA Margin	(35%)	(12%)	8%	24%	35%
Total ARR	**$3.1M**	**$8.2M**	**$18.7M**	**$27.7M**	**$39.9M**

MARKET SIZE

A $15B addressable market growing 8% annually.



GO-TO-MARKET

Land in California. Expand nationwide.

NOW

Pilot Program

- ✓ 3-month free pilots with CA treatment providers
- ✓ Medi-Cal treatment centers (OP/IOP/PHP)
- ✓ Independent clinical study for validation
- ✓ Build case studies and outcomes data

6-12 MO

Convert & Scale

- ✓ Convert pilots to paid enterprise contracts
- ✓ Launch B2C app on App Store / Play Store
- ✓ Publish clinical study results
- ✓ Expand to 15-20 CA facilities

12-24 MO

Expand Markets

- ✓ Target additional Medicaid states (TX, FL, NY)
- ✓ Payer partnerships for value-based contracts
- ✓ Launch EHR integrations (Kipu + others)
- ✓ Grow B2C to 5,000+ paid subscribers

COMPETITIVE LANDSCAPE

No one combines patient engagement, provider analytics, and revenue intelligence.

Capability	Lotus	Sober Apps	Telehealth	EHR Systems
AI Recovery Companion	✓	✗	✗	✗
Bite-Sized Workbook (50 lessons)	✓	~	✗	✗
Support Network Rewards	✓	✗	✗	✗
Real-Time Provider Dashboard	✓	✗	~	~
Predictive Risk & Revenue AI	✓	✗	✗	✗
Billing Code Optimization	✓	✗	✗	~
EHR Integration (Kipu)	✓	✗	~	✓
10+ Language Support	✓	✗	~	✗
Built for Medi-Cal / Medicaid	✓	✗	✗	✗

TRACTION

What we've built. What's next.

COMPLETED

- ✓ Full patient app prototype (iOS/Android)
- ✓ Provider dashboard with 20+ analytics views
- ✓ Sage AI companion (multi-language)
- ✓ 50-lesson bite-sized recovery workbook
- ✓ Support Network Rewards Center
- ✓ Revenue Intelligence & code optimization
- ✓ Predictive Analytics Engine (AI forecasts)
- ✓ EHR integration architecture (Kipu)
- ✓ Brand identity, website, landing page

NEXT 6-12 MONTHS

- → Launch 3-6 CA pilot programs
- → Begin independent clinical study
- → Ship MVP mobile app (iOS + Android)
- → Onboard first enterprise customers
- → Publish preliminary outcomes data
- → Launch support network viral growth loop
- → Go live with Kipu EHR integration
- → Hire clinical advisor and sales lead

THE ASK

We are raising a seed round to bring Lotus to market.

USE OF FUNDS

40%	**Engineering & Product**	Mobile app, AI infrastructure, provider dashboard, EHR integrations
20%	**Clinical & Pilots**	Pilot operations, clinical study, workbook content development
20%	**Sales & Marketing**	Enterprise sales hire, B2C launch, conference presence
15%	**Operations & Compliance**	HIPAA certification, legal, insurance, infrastructure
5%	**Reserve**	Working capital and contingency

FOUNDING TEAM

Innovation meets product vision.

Alpa Patel

Founder & CEO

Entrepreneur with background in technology and business growth and a deep understanding of addiction treatment and recovery industry. Combines innovation with product vision to build technology that makes a meaningful impact, measurably improves patient outcomes and delivers a strong ROI for providers. Passionate about serving underserved populations through accessible tools and in rural areas where there is a real lack of providers.

KEY TEAM MEMBERS

CTO / Baskar Manivannan

Mobile, AI + Analytics infrastructure

Clinical Advisor – Professor, John Curtis

PhD, SUD expertise

L O T U S

Recovery is a $42B problem.
Lotus is the solution.

Let's discuss how Lotus can transform addiction treatment
and outcomes to create lasting value for patients, providers, and investors.
